PROFILE

Versatile Computing Education and Digital Literacy professional with a Bachelor of Science in Computer Security and Forensics, with extensive experience designing and delivering CBC-aligned digital learning programs across Kenya. Proven expertise in curriculum development, teacher training, and implementing secure ICT infrastructure in community and conservation settings. Currently leveraging technical depth as an AV Consultant to design and install integrated conferencing and electronic solutions for corporate and institutional clients. Committed to expanding access to high-quality, secure technology instruction and empowering educators through innovative EdTech integration and robust system reliability.

TECHNICAL SKILLS

- CBC curriculum development and digital literacy training
- EdTech integration and ICT-based instructions
- Scratch programming, Python programming, and foundational web development (HTML, CSS, JavaScript)
- ICT support, troubleshooting, networking fundamentals and infrastructure support
- Cybersecurity principals, threat awareness, and system security practices.
- Audio-visual systems setup and support
- Raspberry Pi and basic physical computing
- Microsoft Office and productivity tools
- Coding club facilitation and youth STEM engagement
- Technical documentation and reporting

SOFT SKILLS

- Clear and effective communication skills
- Strong problem-solving abilities
- Collaborative team player
- High adaptability to new environments
- Good time management

PROFESSIONAL EXPERIENCE

VAULT ELECTRONICS

Dec 2025 – Present

Audio Visual Consultant & Technology Solutions Associate

- Design, install, and commission integrated audio-visual, conferencing, and electronic systems for corporate, hospitality, and institutional clients.
- Conduct detailed client needs assessments and site surveys to recommend tailored, scalable, and cost-effective technology solutions.
- Manage end-to-end AV projects, including system design, equipment specification, procurement support, installation oversight, testing, and handover.
- Provide advanced technical support and troubleshooting for AV, conferencing, and electronic systems, ensuring minimal downtime and high system reliability.
- Deliver user training and post-installation support, improving client adoption and long-term system performance.
- Collaborate with sales and operations teams to prepare technical proposals, system diagrams, and

- client presentations.
- Stay current with emerging AV and electronics trends, advising clients on future -ready solutions.
- Support company visibility through social media content creation, product promotion, and digital engagement.

OI PEJETA CONSERVANCY

Jun 2025 – Dec 2025

Digital Literacy Facilitator

- Delivered structured digital literacy programs targeting the community sponsored schools.
- Facilitated hands on teachers and students' training in computer basics, internet use, digital communication tools, and online safety.
- Provided one on one and group technical support, enabling students to confidently use digital devices and platforms.
- Curated learning materials and lesson plans aligned with participant skill levels and learning goals.
- Tracked participant progress, assessed learning outcomes, and adjusted training approaches for improved effectiveness.
- Worked closely with the community schools and internal stakeholders to expand outreach and participation.
- Supported digital inclusion initiatives aligned with conservation and community empowerment goals.

COMMUNITY EMPOWERMENT THROUGH EDUCATION (CETE)

Jan 2024 – Jun 2025

Digital Literacy Program Curator

- Designed comprehensive digital literacy curricula focused on practical technology use, online safety, and basic productivity tools.
- Led digital skills workshops for youth, adults, and educators.
- Coordinated training schedules, participant engagement, and learning assessments across multiple locations.
- Evaluated program effectiveness through feedback analysis and skills assessments, driving continuous improvement.
- Collaborated with schools, libraries, and community centers to identify skill gaps and customize training content.
- Supported participants in applying digital skills to education, employment, and daily life needs.
- Contributed to program reporting and documentation for stake holders and partners.

HUMAN PRACTICE FOUNDATION

Nov 2023 – Jan 2024

Digital Literacy Intern

- Assisted in the delivery of foundational digital literacy training covering computer operation, internet use, and digital safety.
- Developed simple, user-friendly training materials and practical exercises to enhance learner engagement.
- Provided individualized technical support, addressing learning challenges and basic ICT issues.
- Supported outreach activities aimed at increasing access to digital education for underserved communities.
- Collected and analyzed participant feedback to support curriculum improvement and program refinement.
- Assisted trainers with session planning, facilitation, and logistics.

LEWA WILDLIFE CONSERVANCY**Feb 2023 – Nov 2023****Digital Literacy Intern**

- Facilitated digital literacy workshops for community supported schools.
- Delivered training on computer basics, internet navigation, email use, and online safety.
- Created and adapted training resources to suit varying literacy and skill levels.
- Provided hands on technical assistance for basic hardware and software issues.
- Created KICD approved learning materials for the community sponsored schools.
- Adapted learning materials to align with CBC competencies and age-appropriate learning outcomes.
- Assessed learner progress and refined instructional approaches for improved outcomes.
- Supported conservancy wide digital inclusion and community development initiatives.

RASMILINK LIMITED**Nov 2022 – Feb 2023****Networking Attaché**

- Assisted in the installation, configuration, and maintenance of network infrastructure, including routers, switches, and firewalls.
- Supported network monitoring, troubleshooting connectivity issues, and resolving incidents efficiently.
- Provided first-level technical support to end users, addressing network and system-related issues.
- Assisted in documenting network configurations, system layouts, and troubleshooting procedures.
- Gained hands-on exposure to enterprise networking environments and IT support operations.

GOOD SHEPHERD SISTERS**Nov 2020 – Feb 2022****IT Attaché**

- Provided technical support and troubleshooting for hardware, software, and network systems.
- Monitored, maintained, and secured network infrastructure for reliable connectivity.
- Assisted in IT project planning, execution, and digital transformation initiatives.
- Implemented cybersecurity measures and ensured compliance with data protection standards.
- Conducted staff training and prepared manuals to improve IT knowledge and efficiency.
- Managed IT assets, inventory, and software licensing to optimize resources.
- Coordinated with vendors and internal teams to ensure smooth IT operations.

EDUCATION

2018 – 2023: Bachelor of Science in Computer Security and Forensics, Meru University of Science and Technology.
